

International activities

Savonia University of Applied Sciences, Varkaus has active and varied international activities. The Varkaus Campus has collaboration agreements with several partner schools abroad. The collaboration has been most active with the countries of the European Union but there is also collaboration with countries elsewhere in Europe and all over the world. Student and trainee exchange is also been implemented with schools in other continents such as the USA, South-Africa and Asia.

The key forms of collaboration in the interaction between schools are:

- Student exchange
- Trainee exchange
- Writing your thesis abroad
- Guest lecturers and other staff exchange
- Planning and implementing joint degree programmes and parts of them
- Double and joint degrees
- Creating and using teaching material in English
- Participating in international projects

The school is participating in the following collaboration programs: Lifelong Learning Programme, Erasmus, Leonardo da Vinci, Tempus and Nordplus. Through these programs students have a good chance to go abroad for student or trainee exchange all over Europe.
